

In a multi-billion-dollar operation, every number counts. And every number costs.

Whether through biases or errors, outdated technology or mix-ups, small percentage inaccuracies in your testing data can rack up millions in unrealised profits.

Thousands of hours of strategy, labour, planning and risk aren't delivering the results they should...

That means your mine is not living up to its potential.

TRUST YOUR DATA

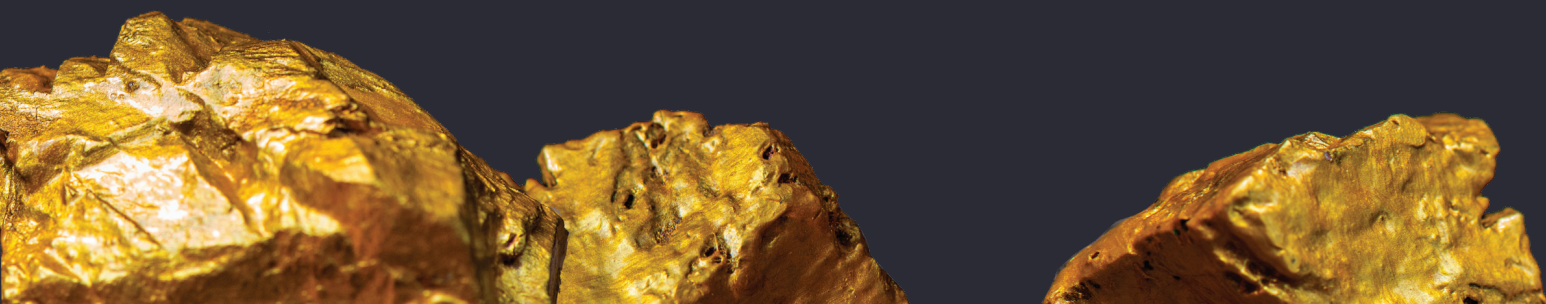

IMPROVE YOUR PRODUCTIVITY

OPTIMIZE YOUR COST

BENEFITS OF IMPLEMENTING ASSAYNET

	Advantage	Effect
 <p>WE KNOW YOUR INDUSTRY</p>	<p>assaynet is the trusted LIMS partner for gold/silver operations.</p>	<p>We know your needs and the industry's. This allows for rapid implementation and a system that suits your unique requirements.</p>
 <p>LOCAL SUPPORT</p>	<p>assaynet has a dedicated support team that understands laboratories and their processes. They are local and multi-lingual.</p>	<p>We can talk to your teams, in their language, at a time that suits them.</p>
